- Start putting images into a competition folder NOW so that you are ready for the next CTPPA image competition on September 22nd
- Entering image competition may seem daunting, but it's one of the best, most rewarding experiences you'll have as a professional - and as an artist.
- You might be leery, afraid of competing against other photographers, but in reality, you are competing against YOURSELF, that is, you will improve and YOU can measure YOUR improvement from competition to competition and from year to year.
- Entering a competition pushes you as a professional photographer by letting you put your skills to the test. Find out what you're capable of while learning new skills and honing old ones. You can also use the publicity from these image competitions for news releases and to impress clients.
- www.printcompetition.com will be used to run the competition
